DETAILED ACTION

Allowable Subject Matter

1. The following is a statement of reasons for the indication of allowable subject matter:

Regarding claims 1, 8, and 18, none of the prior arts of record, in combination or individual, show or make it obvious a power oscillator for controlling the wave shape and amplitude of an input signal to produce a desired output signal having associated circuitries of a tapped delay line connected to the input signal, at least one buffer, an input voltage line for connection to a controllable voltage source, and a plurality of output lines, wherein a plurality of impedance elements having first ends connected to the plurality of output lines and the plurality of impedance elements having second ends connected in parallel to an output node to produce the desired output signal.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
